Male	44%

Median Age: 23

Family and Finances

Students receiving need-based financial aid in eligible programs	21%
Students who work	42%
Students with children	19%

*May not add up to 100% because students may be counted in more than one race. Percentages calculated on reported value.

POINTS OF INTEREST

Closing the Gender Gap in Aviation Everett Community College received a grant from the National Science Foundation to lead a coalition of educators to increase the number of women entering the aerospace technician workforce. Participating schools hope to see a 30 percent increase in female students enrolling in career and technical education classes.

Recruiting more women into the historically male-dominated career is also motivated by the demand for skilled aviation maintenance technicians. Partners in the project include The Boeing Company, Delta Airlines, Glasair Aviation, Everett Public Schools, Marysville School District and Mukilteo School District.

New President In July 2019, EvCC welcomed new president Dr. Daria J. Willis. A strong advocate for student parents, Dr. Willis spoke at an Achieving the Dream briefing in Washington, DC in September about ways colleges can better meet the needs of parents in college and about her own experience as a student parent.

Bringing Education to Students EvCC is participating in the Casino Road Academy, a multi-agency coalition that provides adult education and early learning programs in south Everett. EvCC partners with Seattle Goodwill and the YMCA to offer five levels of English language classes.

The work is part of the college-wide effort to reach historically under-served students and reflects EvCC's commitment to diversity and equity.
